Abstract: Tourism current on the day foreign many countries too attention looking at and to develop movement doing from the fields one is considered . Because tourism some one developed and tourism to the potential has countries for gross internal of the product big to the share has . This reason , tourism of the field developing and people and tourists by for trips of interest increasing Therefore , countries their own tourism potential develop and infrastructure improve for many funds and resources mobilized are reaching . The current on the day many developed countries tourist to infrastructure big attention tourism to develop big contribution is adding . To this because in the states there is natural of resources decrease and human factor development , as well as travel and to rest of interest increasing progress is considered .

Key words: Tourism , tourism services , tourists , hotel economy , tour operators , tourism services .

Login . Tourism world along the most important economic , social and cultural from the fields one It is not only state to the budget income take will come , maybe society development and international connections also great for strengthening contribution Addictive . Tourism many countries for main income from sources is one . Hotels , restaurants , transportation and service show in the fields work places is created . Local entrepreneurship and small business Foreign currency country to the economy enter is coming . Of these all of the economy development for the most important importance profession will reach .

In Uzbekistan tourism develop according to row international principles and concepts action does . Of them some the following :

1. Stable tourism : This concept tourism to the environment damage without delivery , local population culture and traditions respect did without to develop accent gives . Currently ecological disorders and ecological problems mints economic potential and of people life to forgive negative impact doing one at the time our in the country such concepts previously pushing of people in our possessions take going economic to reforms in memory interest exaggerated not to stay , to our country visit ordering of tourists to interest reason is happening .

2. Cultural inheritance Conservation : Tourism in development Uzbekistan's rich cultural heritage and historical legacy storage and promote to do important importance has . coming young Our rich history and national our traditions to deliver and them patriotism in spirit upbringing our country superior from directions one is calculated . Therefore in our country existing cultural inheritance carefully them future for generations to deliver important issue profession will reach .

3. Local to the economy contribution Add : Tourism develop through local businesses support and new work their places create , that with together , local products and services promote to do focused .

4. Infrastructure Development : Tourists for comfortable and safe conditions create transportation , hotel and other infrastructure development

Tourism infrastructure develop every one of the state economic growth and tourist attractiveness in increasing important importance has . Below tourism infrastructure develop in the direction of main measures We have them am , to the world application through many in the arc and to opportunities has we will be :

1. Transport infrastructure improve
2. Hotel and accommodation base expansion
3. Information and communication systems develop
4. Cultural and historical objects restoration to do
5. Personnel preparation and service quality increase
6. Stable tourism principles current to grow
7. Tourism of activity local population in the interests of adapt to provide .

Tourism infrastructure develop through countries not only economic benefit maybe his/her own cultural and natural their wealth on a global scale promote does . With this together of the country main problem was unemployment to reduce the level opportunity gives .

We are in our country tourism field in development foreign countries from their experiences effective using is coming . Them study through this we countries years during achieved achievement and from the shortcomings known short time during analysis as learned to practice current we can possible every one of the country to oneself appropriate strategy way and progress way exist . They tourism develop for various kind measures done is increasing . Of them some :

Electronic Visas : Tourists for visas to take process simplification for the purpose many countries electronic visa system current This trip in planning convenience creates .

Stable tourism Programs : Many countries the environment protection to do and local teams to support aimed at stable tourism programs done is increasing .

Tourism infrastructure Development : Tourists for comfortable conditions create for transportation, hotels , restaurants and other infrastructures to develop big attention is being addressed .

Cultural Events : Countries his/her own cultural legacy and traditions promote to do for international festivals , exhibitions and events transfer through tourists attraction is doing .

Digital Technologies : Many countries digital technologies , including tourism applications and virtual tours current to grow through tourists experience is increasing .

Well-known brand Create : Many countries their own unique culture , history and natural their wealth highlight global tourism through brand to create For example , France his/her own gastronomy and art for , Italy history and architecture for famous

Wide Comprehensive marketing campaigns : Marketing campaigns on a global scale transfer through tourists attraction For example , Australia and New Zealand their own natural beauties and adventure tourism for to marketing big investment enters .

Stable tourism : Many countries stable tourism previously push through the environment protection to do and local cultural inheritance to keep movement These tourists are doing for responsible and ecological clean travel options presented will reach .

Tourism to the infrastructure Investments : Tourism infrastructure develop for big investments These include hotels , transportation systems, and tourism objects own inside For example , Dubai luxurious hotels and modern to infrastructures big investment entered .

Tourists for comfortable conditions Create : Many countries visa-free entrance opportunity create , digital services and tourists for special discounts offer to do through them attraction For example , in Thailand tourists "Tax-Free" purchases for system current made .

Cultural events and Festivals : World on a scale famous festivals transfer through tourists flow increase . For example , Brazil carnival and Oktoberfest in Germany attracts millions tourists attraction does .

Digital from technologies Usage : Mobile apps , virtual tours and on the internet advertisement through to tourists further more comfortable service show opportunities presented These tourists are experience noticeable at the level improves .

This measures foreign in countries tourism field develop and tourists flow to increase help is giving .
