Abstract: This article provides information about approaches to developing the Uzbek language. It examines methods of teaching and easily learning the Uzbek language through various groups and channels organized on globally popular social networks such as Telegram and Facebook.

Keywords: Technological development, grammatical rules, smart phone, Telegram, Facebook, artificial intelligence, mobile application, dialect, analysis program, blogger, internet, information, online, story, poem, automatic response, bot.

Today on the day Uzbek language teaching current to the problem It is the state that has become language to study , to learn to teach big attention is being given . Therefore Uzbek language comfortable in a way fast and easy study for various kind new methods , new textbook and study manuals , computer and mobile communication tools for programs Social on the networks Uzbek language development is time demand and language wealth storage way .

Social on the networks Uzbek language development is time demand is technological to progress suitable accordingly of the language wealth and to oneself uniqueness storage important from their paths Today is one . on the day Out of 27.2 million in Uzbekistan increased internet users there is is , their most of them are like Telegram, Facebook, Instagram social on the networks active . So, this platforms Uzbek language wide to the public to convey , to convey popularization and develop for strong tool be takes .

First of all , the language popularization and promote to do must . Uzbek in the language scientific , cultural , literary and daily to life related topics discussion to do groups and channels create This is important . social on the networks users to the language was attention increases . Example for , " Uzbek" language – nationality pride ” or “My mother tongue is my soul” Telegram channels like "tilim " thousands people attraction useful and meaningful contents This is the language study and promote in doing It is clearly effective .

Then , this group and on the channels users active participation to reach encouragement necessary . Through them Uzbek to the language circle materials – grammar rules , phrases , proverbs and word wealth according to various exercise and assignments placed , especially this Uzbek language studying youth for very useful will be . To the analyses according to , young people information mainly social from networks takes – this and exactly this on the ground the language to develop opportunity creates .

Also , new words create and promote to do necessary . Technology and in the field of science terms localization , Uzbek names to give through of the language modern opportunities expands . For example , "internet", " smartphone " to words suitable Uzbek terms offer in society promote to be This method is necessary . is useful because information technologies with practitioner every one user new words daily in the language hand begins .

Local , traditional words again recovery is also important . Currently forgotten Uzbek words popularization our language wealth to keep service does . Social "Ancient Words " column on

social media under many pages there is and users this from the pages new , but actually ancient words is learning . This language culture to recovery service does .

Bloggers , actors and famous of individuals in interviews literary language instead of to the dialect appeal to do This is also the case . language of standards to the violation take comes . That's why for Uzbek of the language right use promote doer videos , articles and shows preparation , especially relevant This is also true in public policy . important direction as scheduled – for example , the Presidential Decree of October 21, 2019 in the decree Uzbek of the language state language as position reinforcement task clear specified .

Education Uzbek in institutions as well language to develop aimed at activities expandability Schoolchildren for mother language and literature sciences interesting in a way education , higher training in their homeland students article writing , video production , language research to do encouragement and youth between speech culture to increase aimed at competitions to conduct , including " Zulfiyakhanim" daughters ”, “ Man boys ' competitions to the candidates state language knowledge condition insert - of these all the language to love encourages .

Also , Uzbek language to study those who want for interactive online courses , applications , dictionaries , translators and artificial intellect boots create through wide amenities is created . Currently, such as "Tilim.uz" mobile applications this regarding important place is catching .

The state language international on a scale place and country inside prestige increase in the direction of measures :

Today globalization during state of the language international on a scale position and prestige increase it world on a scale wide promote to grow current from tasks one is considered . With this together , our country inside residence doer all nation and people representatives for state language deep study opportunities It is also important to create importance profession In this direction take going systematic affairs Uzbek of the language to develop , to popularize and of influence to increase service is doing .

As you know , Uzbekistan is a multinational state , which includes more than 130 nation and people representatives peace and harmony living is coming . With that together , today on the day edge hand citizens social networks , especially Telegram and Facebook from platforms Uzbek to users relatively more active using This is being observed . Uzbek language foreign users wide among promote to grow opportunities creates .

In particular , Uzbek language foreign in countries wide promote to do it to study interested edge fifty citizens for online platforms organization to grow and information base enrichment planned . Also abroad living compatriots culture and language protect , Uzbek cultural centers develop through to our language was attention strengthen goal Made in . Foreign supreme education in institutions Uzbek language centers organization to , foreign education institutions with Uzbek language teachers between cooperation strengthening is also in the direction important steps to the point enters .

Also abroad activity running scientists , researchers and creators with in cooperation the language to develop aimed at projects done increase , international organizations " Uzbek" in the presence of of the language " friends " clubs to compose planned . Turkish lingual countries with in cooperation Uzbek to the language related dictionaries , translations and mobile applications create and international linguistics within the scope cooperation further strengthens .

Country inside and state of the language unifying power as instead strengthen also a number of measures In particular , Uzbek language instructor educational and methodological manuals and modern materials Education in institutions to students mother language deep education , citizens mother in the language education to take opportunity increase priority from tasks one is considered .

Also , audiovisual works and programs literary language to the standards suitable accordingly preparation , Karakalpakstan Republic population for and state language study conditions improve through language policy stable is being developed .

This efforts state of the language prestige not only country inside , maybe international to strengthen in scale service Language is the language of the nation . soul and pride not to be

necessary . Therefore Uzbek language to preserve , to develop and world on a scale introduction all of us holy It is our duty .

On Telegram automatic answer giver Uzbek in the language bots and to users daily in life help showing. And finally , social on the networks to the language relatively respect It is also important to increase from issues is one . Every day many wrong records , fake records occurs . Of these prevent to take for to users the language right usage , spelling from mistakes escape , clear and fluent expression to do to teach necessary. To the questionnaires According to , 68 percent of users Uzbek in the language contents preferably to see stated – this and there is a demand shows .

These ways through social on the networks Uzbek language further develops and Most importantly , the language innovative , modern and active in a way promote to do of the youth to the language relatively interest and respect increases .

Social on the networks Uzbek language development is only in virtual space not , maybe whole in society of the language position to increase service to do important Language is the essence of a nation . the most main It is a treasure . It is right to preserve it . use , time suitable in the form enrichment our current and future generations in front of holy It is our duty . Technological opportunities and social networks from the strength right if used , Uzbek language in the world advanced languages in line own instead to find possible . Each user to the language considerate if yes , Uzbek language social beautiful , rich and meaningful lives .
